QUALITY POLICY								

QUALITY POLICY

MEAZON S.A. firmly deems that company success results from the design, development, and production of products, which exceed customer expectations.

Every **MEAZON S.A.** employee is considered responsible for achieving the company's commitment to quality during the performance of his/her duties and in his/her relationships with customers.

The Quality Policy of **MEAZON S.A.** is based upon company's commitment to the following points:

- Design, development, and production of products that meet and exceed customer expectations.
- Compliance with legislation and standards regarding product quality and safety.
- Collaboration with customers and external partners, with the aim of continuously improving products.
- Delivery of products to the desired quality, quantity, and delivery time anticipated by the customer.

The Quality Policy of **MEAZON S.A.** is applied with the following methods:

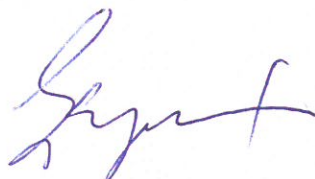

- Implementation of Quality & Environment Management System (Q&EMS) and its continuous improvement, through system reviews and updates (achieving quality goals, results of internal inspections).
- Ensuring resource availability to achieve goals.
- Continuous employee training.
- Thorough quality inspections during the production process and prior to customer delivery.
- Documentation of the execution of the works and controls.

The Management of **MEAZON S.A.** commits to the following tasks:

- Quality Policy is communicated to the company's staff and executives.
- The staff and executives of the company are aware of the documentation and are held accountable for the implementation of the Q&EMS.
- Establishment and monitoring of specific measurable quality objectives (KPI's).
- Revision and update of the Q&EMS and current Quality Policy.
- Ensuring availability of necessary resources for the implementation of the Q&EMS and the continuous improvement of its effectiveness.
